## Front End Developer

Software Engineer with 3+ year of experience in developing high-performance, scalable web applications. Specializing in React.js, Node.js, and Spring Boot, I leverage my expertise to deliver efficient, maintainable, and user-friendly solutions.

## EXPERIENCE

**Samsara • San-Francisco, United States (Remote) • 08/2023 — 08/2024**

### Front End Web Developer

- Built React components to develop and integrate features such as maintenance alerts and driver performance dashboards, leading to enhanced fleet operations, improved efficiency.
- Ensured mobile compatibility and responsiveness across all fleet management applications, allowing users to access vital information on the go , resulting in 50% increase in mobile app usage
- Managed application state with Apollo GraphQL for performance optimizations , resulting in a 30% reduction in data fetching times and a 25% decrease in overall application load times
- Implemented complex data visualization components to present fleet data in a clear and interactive manner.
- Implemented unit and integration tests to ensure code reliability and maintain high test coverage.
- Utilized memoization strategies to prevent unnecessary re-renders of large data sets

**Codify.co • Bishkek, Kyrgyzstan • 07/2022 — 06/2023**

### Full Stack developer

- Built new features and functionality on both the front-end and back-end using a range of technologies, including Typescript, React, Material UI, Spring Boot and PostgreSQL.
- Optimized RESTful APIs using Spring Data JPA, tested endpoints with Postman, and conducted unit and integration tests.
- Collaborated directly with clients to understand requirements, provide technical recommendations, and ensure project success, resulting in client satisfaction and repeat business.
- Demonstrated ability to quickly adapt to new technologies and become proficient with legacy code, allowing me to effectively troubleshoot and maintain existing systems

## SKILLS

**Front End Development** HTML & CSS, HTMX, Javascript, Typescript, React.js, Next.js, Redux, Bootstrap, Material UI, Ant Design, Apollo GraphQL, AWS, SaaS

**Testing** Jest, React testing library, Cypress

**Database** Firebase, MongoDB, PostgreSQL

**Backend Development** Java, C++, C#, Spring Boot, Spring MVC, Docker, Node js, Express.js

## EDUCATION

### Bachelor in Computer Engineering

Kyrgyz State Technical University • Bishkek, Kyrgyzstan
